Information about Copyrighted Content

Some instruments administered for studies archived with ICPSR may contain in whole or substantially in part contents from copyrighted instruments. Reproductions of the instruments are provided as documentation for the analysis of the data associated with this collection. Restrictions on "fair use" apply to all copyrighted content. More information about the reproduction of copyrighted works by educators and librarians is available from the United States Copyright Office.

NOTICE
WARNING CONCERNING COPYRIGHT RESTRICTIONS

The copyright law of the United States (Title 17, United States Code) governs the making of photocopies or other reproductions of copyrighted material. Under certain conditions specified in the law, libraries and archives are authorized to furnish a photocopy or other reproduction. One of these specified conditions is that the photocopy or reproduction is not to be "used for any purpose other than private study, scholarship, or research." If a user makes a request for, or later uses, a photocopy or reproduction for purposes in excess of "fair use," that user may be liable for copyright infringement.

ICPSR PROCESSING NOTES FOR #38417
National Couples' Health and Time Study (NCHAT), United States, 2020-2021
DS 5: NCHAT Partner Survey Data

- 1. Restricted-Use:** This data collection may not be used for any purpose other than statistical reporting and analysis. Use of these data to learn the identity of any person or establishment is prohibited. To protect respondent privacy, this data collection is restricted from general dissemination. To obtain this file, researchers must agree to the terms and conditions of a Restricted Data Use Agreement in accordance with existing ICPSR servicing policies.
- 2. Confidentiality/Disclosure Risk:** In order to protect respondent anonymity and prevent disclosure risk, ICPSR recoded or spot masked many of the variables within the data. The variables are mentioned below:

These variables have been completely masked and recoded. The variable information has been replaced with "MASKED BY ICPSR":

HH27_1 through HH27_10	HHR14_1_0 through HHR14_10	HHR1
HHR11_2	HHR11_3	HHR11_6

These variables had only the disclosive information spot masked. The disclosive information has been replaced with "[DISCLOSIVE DESCRIPTOR] MASKED BY ICPSR":

A4_HHR17_15_TEXT	Q6_12_TEXT	A1_HHR17_15_TEXT
-------------------------	-------------------	-------------------------

- 3. Truncated Variable Labels:** Due to statistical limitations, the variable label for variable **Q65** is truncated in the data. Please refer to the P.I. documentation for full variable labels.
- 4. Truncated Value Label:** Due to statistical limitations, the value label for value 5 in the variables below are truncated in the data. Please refer to the P.I. documentation for full value labels.

National Couples' Health and Time Study (NCHAT), United States, 2020-2021

Variable Description

Summary statistics (minimum, maximum, arithmetic mean, median, mode, and standard deviation) may not be available for every variable in the codebook. Conversely, a listing of frequencies in table format may not be present for every variable in the codebook either. However, all variables in the dataset are present and display sufficient information about each variable. These decisions are made intentionally and are at the discretion of the archive producing this codebook.

NCHAT Partner Survey Data

RESPONSEID: Unique ID - different for each survey record

Based upon 1,515 valid cases out of 1,515 total cases.

Location: 1-17 (width: 17; decimal: 0)

Variable Type: character

RESP_TYPE: Respondent type - primary or partner

Based upon 1,515 valid cases out of 1,515 total cases.
