Terms of Use

The terms of use for this study can be found at:
<http://www.icpsr.umich.edu/web/ICPSR/studies/38417/terms>

Information about Copyrighted Content

Some instruments administered for studies archived with ICPSR may contain in whole or substantially in part contents from copyrighted instruments. Reproductions of the instruments are provided as documentation for the analysis of the data associated with this collection. Restrictions on "fair use" apply to all copyrighted content. More information about the reproduction of copyrighted works by educators and librarians is available from the United States Copyright Office.

NOTICE
WARNING CONCERNING COPYRIGHT RESTRICTIONS

The copyright law of the United States (Title 17, United States Code) governs the making of photocopies or other reproductions of copyrighted material. Under certain conditions specified in the law, libraries and archives are authorized to furnish a photocopy or other reproduction. One of these specified conditions is that the photocopy or reproduction is not to be "used for any purpose other than private study, scholarship, or research." If a user makes a request for, or later uses, a photocopy or reproduction for purposes in excess of "fair use," that user may be liable for copyright infringement.

ICPSR PROCESSING NOTES FOR #38417

National Couples' Health and Time Study (NCHAT), United States, 2020-2021

DS1: Public-Use NCHAT Main Respondent Survey Data

1. **Terms of Use:** These data may not be used for any purpose other than statistical reporting and analysis. Use of these data to learn the identity of any person or establishment is prohibited.
2. **Confidentiality/Disclosure Risk:** In order to protect respondent anonymity and prevent disclosure risk, ICPSR recoded many of the variables within the data. The disclosive information has been replaced with "MASKED BY ICPSR".
3. **Differences in Public-Use File:** There are three key differences between this public-use version of the data and the restricted-use version (DS2).
 - a. This file contains 3 fewer cases (3,639) compared to the restricted-use version (3,642). The Principal Investigator removed the 3 cases prior to giving the data to ICPSR.
 - b. The restricted-use version contains one additional variable, **WEIGHT_COUPLE**, which is for use in conjunction with the NCHAT PARTNER Survey Data (DS5).
 - c. Additional variables were recoded or masked in some way in this public-use version compared to the restricted-use version.
4. **Newly Recoded "IDENTITY" Variables:** The Principal Investigators provided 11 new "**IDENTITY_#_R**" variables for data users to use. These are recoded versions of the original "**IDENTITY**" variables. Data users are free to utilize whichever version they so choose.
5. **Truncated Variable Label:** Due to statistical limitations, the variable label for variable **Q65** is truncated in the data. Please refer to the P.I. documentation for more information. The full variable label is:

In the past 30 days have you used antidepressant medication, such as citalopram (Celexa), escitalopram (Lexapro), fluoxetine (Prozac), fluvoxamine (Luvox), paroxetine (Paxil), sertraline (Zoloft), bupropion (Wellbutrin), vilazodone (Viibryd), vortioxetine (Brintellix), or amitriptyline (Elavil)?

6. **Truncated Value Labels:** Due to statistical limitations, the value label for value 5 in variable **HISP** is truncated in the data. Please see the P.I. documentation for more information. The full value label is:

Yes, another Hispanic, Latino/a/x, or Spanish origin (SPECIFY: Enter origin, for example, Argentinean, Colombian, Dominican, Nicaraguan, Salvadorian, Spaniard, and so on)

7. **Additional Information:** For additional information on the National Couples' Health and Time Study (NCHAT), please visit the [National Couples' Health and Time Study \(NCHAT\)](#) website.

National Couples' Health and Time Study (NCHAT), United States, 2020-2021

Variable Description and Frequencies

Note: Frequencies displayed for the variables are not weighted. They are purely descriptive and may not be representative of the study population. Please review any sampling or weighting information available with the study.

Summary statistics (minimum, maximum, arithmetic mean, median, mode, and standard deviation) may not be available for every variable in the codebook. Conversely, a listing of frequencies in table format may not be present for every variable in the codebook either. However, all variables in the dataset are present and display sufficient information about each variable. These decisions are made intentionally and are at the discretion of the archive producing this codebook.

Public-Use NCHAT Main Respondent Survey Data

RESPONSEID: Unique ID - different for each survey record

Based upon 3,639 valid cases out of 3,639 total cases.

Location: 1-17 (width: 17; decimal: 0)

Variable Type: character

RESP_TYPE: Respondent type - primary or partner

Value	Label	Unweighted Frequency	%
PRIMARY	-	3639	100.0 %
	Total	3,639	100%

Based upon 3,639 valid cases out of 3,639 total cases.

Location: 18-24 (width: 7; decimal: 0)

Variable Type: character

STARTDATE: Date of interview - start

Value	Label	Unweighted Frequency	%
01-APR-2021	-	3	0.1 %
01-DEC-2020	-	6	0.2 %
01-FEB-2021	-	16	0.4 %

Q4: On which step of the ladder would you say you personally feel you stand at this time?

First, we'd like to start by asking you some questions about your personal experiences.

Please imagine a ladder with steps numbered from zero at the bottom to ten at the top. The top of the ladder represents the best possible life for you and the bottom of the ladder represents the worst possible life for you.

Q4. On which step of the ladder would you say you personally feel you stand at this time?

Value	Label	Unweighted Frequency	%
-99	Valid Non-Response	0	0.0 %
0	0 - Worst possible	3	0.1 %
1	1	9	0.2 %

INTRO: Next, we will ask you about all members of your household who live there most of the time. We will use initials (first letter of their first name and first letter of their last name) to identify members of your household. If members of your household have the same initials, please use something different for each family member. You can use a nickname, numbers, initials - anything you would like to identify each family member. (AB, YZ, Person1, Person2, Kid)

Please complete the following questions for your current spouse/partner(s) who live(s) in your household most of the time. If you have more than one spouse/partner living in your household most of the time, you will be asked if you have another spouse/partner after you complete the series of questions for your first partner.

INTRO: Next, we will ask you about all members of your household who live there most of the time. We will use initials (first letter of their first name and first letter of their last name) to identify members of your household. If members of your household have the same initials, please use something different for each family member. You can use a nickname, numbers, initials - anything you would like to identify each family member. (AB, YZ, Person1, Person2, Kid)

Please complete the following questions for your current spouse/partner(s) who live(s) in your household most of the time. If you have more than one spouse/partner living in your household most of the time, you will be asked if you have another spouse/partner after you complete the series of questions for your first partner.

Location: 6398-6400 (width: 3; decimal: 0)

Variable Type: numeric

(Range of) Missing Values: -98, -97

PARENT4_2: PARENT4_2 How close do you feel to this parental figure?

We would like to know about the individual(s) you lived with who you feel raised you. This may be one or both of your biological parents, a step-parent, adoptive parent(s), grandparent(s), etc. If more than one person comes to mind, choose the two that are more important to you to answer the following questions. We'll ask you about the first parental figure to begin and then you'll have a chance to answer about a second parental figure.

[IF PARENT2 = 1]
